

KAHOOT GAME LINKS

We know that **playtime** is a fun time, but we also want your **students to learn how important it is to make playtime inclusive**, which is why **we're suggesting you make a game of it!**

Organise a classroom debate with your students to discuss ways of transforming playtime into a time for learning, which takes their tastes and interests into account.

- In case you've never used Kahoot before, we've prepared a **Step-by-step tutorial for you.**
- If you want to create your own Kahoots, use the tutorial and keep gamifying.

Categories A, B and E

Primary and Special Education.
